

UECU + EDUCATION MINNESOTA ESI

United Educators Credit Union was established in 1957 to benefit Minnesota Education Association members. Originally named MEA Credit Union, we assisted with the specific financial needs of the education community. Throughout the years – from strikes and natural disasters, to times of prosperity – the credit union was there.

Today, UECU is the only credit union exclusively serving all Minnesota educators and their family members. We are now proud to announce that UECU is the only credit union fully sponsored by Education Minnesota ESI.

This partnership will allow the credit union to continue its tradition of being educator focused. Thank you for continuing to support us along the way.
